

CLEVELAND BLACK OXIDE

ROHS DECLARATION FOR BLACK OXIDE CONVERSION COATING

Cleveland Black Oxide imparts a black oxide surface conversion to steel, stainless steel, brass, bronze, copper and die cast zinc components provided to us by our customers.

All of our applied finishes are in full compliance with the European Union Directive 2002/95/ec. "Restriction of use of hazardous substances (RoHS)", that went into effect as of July 1, 2006.

All black oxide converted surfaces will not contain any mercury, cadmiums, lead, hexavalent chromium and poly-brominated biphenyl's (PBBS) and poly-brominated biphenyl ethers (PBDEs) flame retardants, in excess of the directives limits. Cleveland Black Oxide is therefore in compliance with the RoHS directives and no abatement plans are necessary.
